

Alternate Safety Glasses

As an alternative to safety glasses available from the Chemistry Store, Bolle & Uvex products are also available by purchase order from an external safety product supplier.

Ordering Bolle or Uvex Safety Glasses (Post Graduate & Research Laboratories, Workshops)

1. Obtain permission from you Laboratory Manager to purchase Bolle or Uvex Safety Glasses.
2. Complete an Expenditure Authorisation Form and submit to Engineering Finance Dept, using the following company contact details;

Amare Safety Pty Ltd
5-6 Rosemary Court
Mulgrave
Victoria 3170
Contact Person: Michael Smith
Ph: 8542 0400
ABN: 67 006 945 811

Ensure that you quote the applicable part numbers listed in this document to ensure your chosen style of safety glasses are delivered.

Ordering Bolle Prescription Safety Glasses (Post Graduate & Research Laboratories, Workshops)

1. Gain approval from your Laboratory Manager before proceeding.
2. Order Bolle Calibre Safety Glasses with RX Adaptor (see page 5 of this document) as per steps outlined above.
3. Upon receipt of glasses and adaptor, take adaptor to your Optometrist or Melbourne School of Optometry to have lenses ground to fit.

NOTE: Cost of manufacturing lenses for adaptor is not covered in the original purchase price of the glasses – this cost will have to be covered either personally or by arrangement with your local lab manager.

**Prices quoted are valid until 31st December
2008 – to be reviewed January 2009**

Name: Bolle CALIBRE

Amare Safety Part Number: 02/BC02

Ideal for use with prescription lenses using RX adaptor

**Price: Glasses = \$14.86
RX Adaptor = \$14.86 (add “+ Adaptor” to
Calibre part number for ordering purposes)**

FEATURES & BENEFITS

- Moulded cheek/brow guard and side shield for optimum protection
- Adjustable lens inclination (3 points) and temple length (7 points)
- Single piece polycarbonate wrap around lens that provides true distortion free vision
- ALS anti-fog/anti-scratch coating on both sides of clear and smoke lenses

HIGHLIGHT FEATURE

- Can be fitted with an Rx Prescription lens whilst maintaining medium impact protection approval

NOTE: Preferred style for prescription lens safety glasses as prescription lenses ‘clip in’ behind a rated safety glass lens, therefore;

- **Not requiring prescription lenses to be rated, and**
- **Reduces chance of scratching prescription lenses**

Name: Uvex OTG

Amare Safety Part Number: [02/X324](#)

Suitable for fitting over prescription glasses.

Price: \$13.44

Uvex OTG (over the glasses) features the same unique styling as the popular astrospec but is designed to fit over prescription spectacles and to offer an economical alternative to expensive safety prescription frames or bulky goggles. Now prescription wearers can experience all the benefits that have made the astrospec so popular including contemporary design and one-size-fits-all adjustability. Patented adjustable lens inclination and adjustable temple length provide a close to the face fit, while covering your prescription eyewear. [duo-flex temples](#) feature soft "comfort cushions" for the sensitive area behind the ears.

- AS/ NZS 1337 medium impact approved

Name: Bolle TRACKER

Amare Safety Part Number: [02/TR02](#)

Doubles as a goggle by using strap to form a light seal against face

Price: \$20.00

FEATURES & BENEFITS

- Polycarbonate frame ensures excellent durability and strength
- Adjustable head strap and rubber temple tips provide a secure fit and greater protection
- ALS anti-fog/anti-scratch coating on both sides of clear and smoke lenses

HIGHLIGHT FEATURE

- Rubberised eye seal provides exceptional protection against dust and other particles

Name: Bolle NITRO GOGGLES
